DISCOVER MORE

The thrive to exist, to live better, desire to have more.

All of these depend on how far you will go out there to get what you need. Do you have that courage to be fearless and sprint that extra mile.

It depends on the passion, the hunger for perfection. The human ability to do more, want more, explore more,

Discover **M + R E**

Our Credo

We at Promica believe that interior and outdoor space design have become fundamental part of life. Our motto to keep to quality of laminates has got success in our previous collection. Being an essential part of furniture industry our worldclass decorative laminates sets apart.

Our laminates ensure long durability to the life of the colour. Promica conforms to Indian and international standards with it's large and unique range of decorative laminates.

This freedom from design constraints makes it the first choice of those who are looking to redesign their lives and spaces.

Technical Specification

Properties	Specified values as per IS:2046-1995, Type S, HGS	Promica Conforms
Thickness	1.00 mm (±10%)	✓
Resistance to surface wear	350 (revolutions)	✓
Resistance to immersion in boiling water - Mass increase (%) - Thickness increase (%) - Appearance	10.0 (Max) 11.8 (Max) Not worse than 4	✓
Resistance to dry heat 180° c	Not worse than 4	✓
Dimensional stability at deviated temperature - Longitudinal (%) - Transverse (%)	0.55 (Max) 1.025 (Max)	✓
Dimensional stability at 20° c - Longitudinal (%) - Transverse (%)	0.375 (Max) 0.60 (Max)	✓
Resistance to impact by small diameter ball	20 N (Mini)	✓
Resistance to cracking	Not worse than 4	✓
Resistance to scratching	2 N (Mini)	✓
Resistance to staining	Not worse than 5	✓
Resistance to colour change (wool standards) - In xenon arc light - In enclosed carbon arc light	Not worse than 6 Not worse than 5	✓
Resistance to cigarette burns	Not worse than 3	✓
Resistance to steam	Not worse than 4	✓
Appearance	Should be free from foreign particles	✓

Promica comprises of layers of specially selected paper, impregnated with melamine and phenolic resins pressed and hardened under heat and pressure. The process ensures strong bonding, resistance to boiling water and chemical, and increases dimensional stability. Surface protection through special treatment renders all Promica scratch resistant. It is suitable for a wide range of applications such as wall lining, column claddings, doors, shelves, table-tops, work-tops, counters, vanity units, cubicles, lift linings, store fittings, displays, check out desks etc.

Size: 2440 mm X 1220 mm (8' X 4')

Care & Maintenance:

Cleaning should be carried out with a soft moist cloth and warm soap solution. Do not use detergents containing abrasive particle or excess soda.

Limited Warranty:

Promica warrants that its products are reasonably free from manufacturing defects. This warranty shall not apply to defects or damage arising from any of the following: Accidents, abuse or misuse, exposure to extreme temperature, improper fabrication or installation and improper maintenance. Under no circumstance shall the manufacturer be liable for any loss or damage arising from the purchase, use, or inability to use this product, or for any special, indirect, incidental, or consequential damages.

Disclaimer:

Customers are advised to reconfirm selected laminate when placing orders as our liability does not include claims arising from sample chip pasting error. Samples presented are indicative of colour, pattern and surface finish but not of actual thicknesses. Few patterns series recommended for horizontal applications only.

Important Note:

Cutting a laminate sheet at an angle of 90° leads to development of cracks in corner after pasting. Therefore, it is advisable to avoid cutting at an angle of 90°. Bonding of laminate under high humidity, plywood with high moisture content, and uneven surfaces, inferior quality adhesive and insufficient pressure may lead to delamination / air bubbles in between ply & laminates.

Premium grade in Promica is marked as ★
